# Acknowledgement to reviewers 2014/2015

Henning Madry

The Journal of Experimental Orthopaedics is very fortunate to have excellent reviewers who kindly agree and spend their time reviewing manuscripts for the journal. Our reviewers work hard to ensure a rapid, rigorous and fair peer review process of each manuscript. Such peer review, focusing solely on the scientific integrity to determine the quality of the research submitted, is very critical to the success of our young journal.

I wish to thank very much those reviewers who provided their time and expertise in evaluating manuscripts for the Journal of Experimental Orthopaedics in 2014/2015.

Sincerely,  
Henning Madry  
Editor in Chief
